

Project Developments

1.0	Q3 Developments
1.1	Project Carbon Working Group - The project carbon workflow documentation has been reviewed. It has been created in a G-slide format with hyperlinked pages. This creates an easy to navigate and easy to edit document.
1.2	Project Developments - One Click LCA is being used to evaluate initial project designs
2.0	Q4 Objectives
2.1	Project Carbon Working Group Outcomes/Actions - Working Group contributors to complete main section headings and begin to add content to the project carbon workflow document.
2.2	Project Developments - Dedicated team to use and provide feedback on One Click LCA and develop it as a service to be used. Internal demonstration and introduction to all staff to be planned.

Practice Developments

1.0	Q3 Developments
1.1	Net Zero Operational Carbon - Energy usage information for Q3 2025 has been shared to all staff by office location (where data is available)
1.2	Sustainable Water Usage - Water usage information for Q3 2025 has been shared to all staff by office location (where data is available)
1.3	Sustainable Connectivity and Transport - Digital connectivity survey for 2025 was distributed to all staff to evaluate the quality of digital connectivity to avoid the need for unnecessary travel
1.4	Good Health & Wellbeing - Monthly 'Mindfulness' sessions have been provided for all staff to join that wish to
1.5	Sustainable Communities & Social Values - - Our School and College Work Experience Placement programme for 2025 began in April and ended in August, We supported 8 students in total across 2 office locations Jewry Wall Museum - In September, our Leicester colleagues gave a talk and tour of the Jewry Wall Museum to the Leicester Heritage Partnership to explain the conservation techniques used and how the building was reordered Park(ing) Day - The Birmingham office participated in an annual global event in September which focused on rethinking the potential of urban areas. Maber transformed a city car parking space into a wellness space for the day LCB Depot Leicester Design 2025 - As part of the Love Architecture Festival Maber hosted a VR event in September in the theme of 'home' focusing on designing for Neurodiversity - Investigating using a community led social impact ecosystem
2.0	Q4 Objectives
2.1	Net Zero Operational Carbon - - Explore options of sourcing a renewable gas energy supplier - Investigate power settings (Air conditioning, printers etc) in all office locations and how energy usage could be reduced
2.2	Net Zero Embodied Carbon Sustainable Materials - Raise awareness of single use plastic in the home and workplace
2.3	Sustainable Land & Ecology - Further training initiatives on biodiversity, land and nature to be introduced
2.4	Sustainable Communities & Social Values - - Maber Leicester will be participating in Love Architecture 2025. Maber will lead a walking tour of the Jewry Wall Museum, organised by the Leicestershire & Rutland Society of Architects, the tour will explore architectural elements of the building and the construction process - In November we will be leading a talk on all things WELL at the G4C West Midlands Young Professionals Breakfast Club
